Opus entry units Delta Series

Opus DL20-20

The Delta is a soft pad, front reading electronic entry unit that provides easy operation for all types of safes.

The Entry Unit features a terminal for an electronic key and two contacts for an emergency power supply.

Cable length is approximately 30 cm.

The Delta entry can be mounted as stationary or turnable model.

It requires an internal battery box

The Opus Delta entry unit is compatible with all Opus/NL electronic locks
